## Mackensen Fails to Outflank the Italians

### LOYAL RUSSIANS BATTLE WITH BOLSHIEVIKI

#### 'STAND TOGETHER TO WIN,' WILSON'S PLEA TO LABOR

Power Cannot Be Used Against Free People When the Power Is Controlled by the People," He Declares.

"This Is the Last Decisive Issue Between the Old Principle of Power and the New Principle of Freedom."

"I Oppose Not the Feeling of Pacifists but Their Stupidity—Pacifists Do Not Know How to Get Peace, but I Do."

**Striking Points in Wilson War Message to Workmen of U. S.**

"The only way to obtain peace is to win the war."

"If Germany keeps what she has she will have all that her dreams contemplated when the war began."

"This is the last decisive issue between the old principle of power and the new principle of freedom."

"Power cannot be used against free people when the power is controlled by the people."

"I oppose not the feeling of pacifists, but their stupidity."

"If we are true friends of freedom we will see that the power and productivity of the country shall be kept at maximum."

"While we are fighting for freedom we must insure the freedom of labor."

"The horses that kick over the traces must be put in a corral."

"I am with you if you are with me."

AUDITORIUM, BUFFALO, Nov. 12.—President Wilson made a personal and eloquent appeal here today for the full support of organized labor for the Government in the conduct of the war. Speaking before the annual convention of the American Federation of Labor, he declared the war could not be won unless all factions unite in a common cause, sinking their differences.

The President paid warm tribute to Samuel Gompers, President of the Federation, and virtually called upon the Federation to give him united support. He denounced pacifists and critics. He appeared for co-operation. Discussing Germany, the President declared flatly that Germany had started the war and that he was willing to await the verdict of history on that statement.

The President's speech was as follows:

"Mr. President, Delegates of the American Federation of Labor, Ladies and Gentlemen: I esteem it a great privilege and a real honor to be thus admitted to your public councils. When your Executive Committee paid me the compliment of inviting me here I gladly accepted the invitation. 'TIME FOR DRAWING MINDS OF NATION TOGETHER.'"

"It seems to me that this, above all other times in our history, is the time for common counsel for the drawing not only of the energies but of the minds of the Nation together."

"I thought that it was a welcome opportunity for disclosing to you some of the thoughts that have been gathering in my mind during the last momentous months."

"I am introduced to you as the President of the United States, and yet I would be pleased if you would put the thought of the office into the background and regard me as one of your fellow citizens who has come here to speak, not the words of authority, but the words of counsel, the words which men should speak to one another who wish to be frank in a moment more critical perhaps than the history of the world has ever yet known—a moment when it is every man's duty to forget himself, to forget his own interests, to fill himself with the nobility of a great national and world conception, and act upon a new platform elevated above the ordinary affairs of life, elevated to where men have views of the long destiny of mankind."

"I think that in order to realize just what this moment of counsel is, it is very desirable that we should

#### CRASH OF TROOP TRAINS KILLS AND INJURES NINETEEN

Three Soldiers Dead in Collision of Two Sections Carrying Utah Men East.

DENVER, Colo., Nov. 12.—Three soldiers were killed and sixteen injured today in a wreck of a troop train near Cotopaxi, Colo., according to a message received at the Denver & Rio Grande Railroad offices here. The troops were said to be traveling east from Utah.

According to railroad officials, the accident, which occurred shortly before 6 o'clock this morning, was a rear-end collision between sections two and three of a train. Both sections carried soldiers.

The conductor of the second section reported his train was traveling slowly when the third section, moving twenty-five miles an hour, crashed into him.

Most of the troops were infantry from Salt Lake City, according to the report. Cotopaxi is seventy-two miles from Pueblo.

#### LAFAYETTE FLYERS TO BE U. S. OFFICERS

Entire Group From America to Be Transferred to the American Army.

PARIS, Nov. 12.—The group of American aviators comprising the Lafayette Flying Corps will soon be incorporated into the American Army, a majority of the men receiving officers' commissions. The formal transfer by the French Government is expected daily.

Each member of the flying corps who since its organization has been brevetted as a pilot or has served at the front, together with the families of those killed or taken prisoner, will receive a handsome engraved certificate at the time of the transfer from the Lafayette Flying Corps Committee which financed and successfully carried out the organization of the corps.

The certificate will be issued "in recognition of the service rendered to France and her allies for the cause of humanity, thereby in a measure repaying the great debt which America owes to France and contributing to the victory of liberty and civilization over military autocracy and barbarism."

One hundred and sixty certificates will be presented, each signed by William K. Vanderbilt, Honorary President, Max J. Aronson de Billancourt, President, and Dr. Edmund Groves, Vice President of the Flying Corps Committee.

#### TURKS MAKE STAND 20 MILES FROM JERUSALEM

British Troops Still Pushing Forward in Some Sectors in Palestine.

LONDON, Nov. 12.—Turkish troops which have been retreating before the British advance in Southern Palestine are organizing for defense in the vicinity of Hebron, about twenty miles southwest of Jerusalem, says an official statement today.

British mounted troops are continuing to push forward in some sectors.

Only one, Mrs. Willey, Gives Notice of Appeal—Sentences Deferred.

WASHINGTON, Nov. 12.—All forty-one women's party militants arrested Saturday for picketing the White House were convicted in Police Court today, but sentence was suspended.

Only one, Mrs. Harvey W. Willey, wife of the pure food expert, gave notice of appeal.

#### SOUGHT FOR CHAPIN MURDER.

Former Cleveland Druggist Formally Charged With Killing.

CLEVELAND, Nov. 12.—John F. Haggerty, former Cleveland druggist, was formally charged today with the murder of Dr. Harry Lorenzo Chapin. A warrant for his arrest was issued.

Dr. Chapin was found lying late Thursday in the Colonial Hotel, with his skull crushed. The police believe the wealthy doctor was chosen by a bankrupt Chicago "dope ring" as the most promising of its customers and that he was decoyed to the hotel and murdered, with robbery as the motive.

#### ARMY OUSTS Foe's ALLIES.

Hungarians, Austrians, Bulgarians and Turks Off List.

TRENTON, N. J., Nov. 12.—Representations made by Gen. Edue to President Marshall (relative to the subjects of countries allied with Germany but with which we have not declared war) being drafted into the National Army today resulted in Gen. Crowder wiring the Government:

"By all means rid your list of alien citizens of allies of the enemy of the United States as promptly as possible."

This ruling will mean from the army and prevent the further drafting of Hungarians, Austrians, Turks and Bulgarians.

#### BIG ITALIAN GUNS IN PLACE; TROOPS IN NEW TRENCHES

Main Line Shortened and Fall Precautions Taken for the Protection of Venice.

ROME, Nov. 12.—The Italians have realigned the enemy everywhere on the northern front, along which the Austrians are attempting to outflank the Italian River line, the War Office reports. On the plain there is brisk firing across the Piave River.

An enemy action on the Asiago Plateau, on the Trentino front, was a complete failure.

ITALIAN HEADQUARTERS IN NORTHERN ITALY, Nov. 12 (by the Associated Press).—The enemy's operations on the north and east in an attempt at encirclement of the Italians have not succeeded. The menace on the Italian left wing is practically past.

The reconcentration of the Italian army along the newly chosen line of defense is now virtually an accomplished fact. The troops have taken up their positions in trenches, the gun emplacements have been made ready and the whole vast organization is preparing for the battle that is not so far off. The men are in good spirits, and a feeling of determination prevails in all ranks.

Retirement of that part of the Italian force in the Carnia district of Northern Venetia has shortened the Italian main front, which now presents a compact line extending about twenty miles along the new river defenses to the sea.

The Allies are represented on the new front by some British batteries from the Carso. The presence of Allied forces is regarded as of the highest importance for its moral effect on the Italian troops, which thus far have borne the entire shock, as well as for its purely military value.

It may now be stated that the present line of defense is the only first line which the supreme command has ever considered seriously. The Tagliamento and Livignz lines were designed merely to block the progress of the enemy up to the present defenses. The correspondent received this information authoritatively ten days ago, but was then unable to divulge the location of the line for reasons dictated by military necessity.

Yesterday's report from Gen. Diaz, the new commander, stated that Italian reinforcements crossed the Piave River, after destroying the bridges. This river should be noted carefully. A glance at the map will show that, after the Tagliamento and the Livignz, the Piave is the first important stream capable of interposing a strong tactical position.

The river is deep, wide, stony and full of bridges. Its mouth is 25 miles north of Venice. Where the present line is cannot be indicated further, but this gives the essential features.

The gravity of the situation for Venice has not been underestimated, and suitable precautionary measures have been taken to protect this great art center. The city preserves comparative calm while picturesque gondolas, filled with passengers and goods take departing throngs to the station.

The splendid services which the Italian cavalry has performed as a rearguard has a melancholy sequel in the death of Major General of Cavalry Robin de Cerny, who was commanding an infantry division. He fell at the head of his troops and died while being attended by military surgeons.

The heroic resistance of part of the Thirty-sixth Division of Infantry also has received the highest praise. It resisted surrender until surrounded by an enormously superior force, with its ammunition exhausted.

#### MISS KAHN DRIVING BRITISH DESPATCH CAR AT THE BATTLE FRONT.

Miss Kahn, daughter of Otto H. Kahn, is driving a despatch car for the British Government at the front. This information was brought to the United States by Miss Jessie M. Lawson of No. 113 East 34th Street, New York, who has returned from England, where she went with Miss Kahn in September. Miss Kahn brought her own car and volunteered her services.

#### NERVOUS GERMANS SPRAY AMERICAN LINES WITH FIRE

Details of First Fight Show Rare Courage of United States Infantrymen.

WITH THE AMERICAN ARMY IN FRANCE, Nov. 12.—Conditions in the American sector continue to be normal, with intermittent artillery firing on both sides. The infantrymen have had two diversions. The first occurred near daylight. The enemy, apparently thinking a raid was imminent, opened up with machine guns at the point where the lines are closest. A stream of bullets whistled over the American first line.

In the American lines, it was thought a German raid was in progress, and the American artillery laid a barrage over the German trenches. No attack was made.

About the same time French troops on the American flank observed four Germans cutting the barbed wire defenses. A French patrol headed them off, capturing the whole party.

Complete details of the recent German raid on the American trench show that the American troops set an example for courage and valor. The officer who had charge of verifying the accounts of the raid said to the correspondent to-day:

"I am proud to say that our men engaged in the fight did everything within their power. They jumped into the fight and stuck to it. In the first place the troops had been in the trenches less than three hours when the barrage fire of the Germans began. They had marched a good part of the previous night and were tired. Some of them were allowed to go to sleep in a dugout twenty-five feet underground."

"When the barrage began these men did not hear the racket. It is apparent that the first they knew of it was when the Germans started throwing grenades down upon them. It was these men who were taken prisoner, but they fought well, even when surprised that way, for the stairs of the dugouts were covered with blood, especially the top half, showing that the Germans there must have been hit. The entrance to the dugout also gave indications of close, hand-to-hand fighting."

"From the dugout through the trenches and over the top through the barbed wire and well out into No Man's Land there was a wide trail. How much of it was American and how much German is not known."

"There is a Corporal now in the hospital back of the lines who did a good job. He was in the listening post when the barrage began. During the firing an officer made his way through the shells. God knows how, and yelled to the Corporal to go into the dugout. The Corporal saw the officer's lip move, but did not understand the command, and remained at his post."

"At the end of the barrage he saw Germans all around him, five behind him in front of him. He took careful aim and fired three shots and three of the enemy were seen to fall, then a hand grenade fragment entered the Corporal's back and put him out of action."

Investigation shows that all the American telephone wires between the observation posts and trenches and batteries at the rear were cut by fragments of German shells, which numbered approximately fifty thousand. The Germans crossing No Man's Land, rolled out telephone wires behind them and set up a small field telephone exchange outside the American barbed wire, with branches running to at least three points, while the raid was in progress to direct the enemy artillery.

#### KERENSKY'S ARMORED CARS RUN DOWN BOLSHIEVIKI IN THE STREETS OF PETROGRAD

Despatches Direct From Petrograd Announce Constant Battles Between the Rival Forces—Washington, Reassured, Believes Kerenky Will Regain Control.

PETROGRAD, Nov. 12.—Street fighting is proceeding constantly. Junkers loyal to the Kerenky Government regained possession of the telephone station this morning. The exact whereabouts of the Kerenky army which is reported to be approaching the city is unknown at this hour.

Fighting is in progress in the Grand Morskaja between Bolshevik infantrymen and junker forces in armored cars.

Announcement is made that no official communication has been received from army headquarters.

[Failure to issue an official statement may mean the Kerenky government desires to withhold information about movements of troops from the Bolsheviks in Petrograd.]

WASHINGTON, Nov. 12.—Fresh evidence that the Bolshevik revolt in Russia is collapsing reached Washington to-day.

The Russian Embassy still pinned its faith on the three "K's"—Kerensky, Korniloff and Kaledine—the three strong men of Russia. Korniloff, only recently disgraced, and with his life in Kerenky's hands, to-day loomed up as a possible savior of his country.

Reports from Ambassador Francis to the State Department strengthened the belief that the Kerenky Government would regain the ascendancy in Petrograd. The despatches were sent prior to the news that Kerenky had reached Tsarskoe Selo in his march on Petrograd.

Regarding conditions outside of Petrograd the Ambassador was uninformative. In earlier despatches he has stated his inability to report on the outside situation because of the wires being controlled by the Bolsheviks.

LONDON, Nov. 12.—The Bolshevik "Government" of Russia is crumbling fast. It may already have crumbled away.

A despatch from Moscow says the garrison has transferred its allegiance back to the Provisional Government, forcibly elected Bolshevik leaders from various offices, and driven them fighting back into the Kremlin.

It is reported there that Gen. Korniloff has escaped from Bykhoff and will aid President Rodzianko of the Duma in forming a Government at Moscow. Gen. Kaledine of the Don Cossacks has declared himself leader of the All-Cossack tribes.

The village of Tsarskoe Selo, about fifteen miles from Petrograd, has been taken over by Kerenky troops. Formation of an All-Russian organization to rescue the nation was also reported.

Kerensky, with Gen. Alexieff, chief of staff of the army, was reported to have escaped in the Bolsheviks by train concealed in the bottom of an ambulance.

The despatch from Petrograd, dated Saturday, last, additional emphasis in the conviction here in London that Germany engineered the revolt. It detailed that the Russian fleet of war vessels which appeared at Petrograd in time to overthrow the Provisional Government's defenders, came from Heligoland and on forged instructions. The fact that a German fleet attacked Heligoland last Friday or

#### 7,000 Substitutes for Food Are Being Used Now by Germans

ZURICH, Nov. 12.—An official report issued by the German War Food Bureau says that more than 10,000 substitutes are now used in Germany. Seven thousand of these are substitutes for food.

At the beginning of 1917 there were less than 2,000 substitutes, of which twelve hundred were food substitutes.

#### CONGRESSMEN IN PARIS; WERE UNDER GERMAN FIRE

American Party Visited French, British and American Battle Fronts.

PARIS, Nov. 12.—The American Congressmen who have been visiting the British, French and American fronts returned to Paris yesterday. While near Vimy Ridge, on the British front, they were under shell fire. They saw a bombardment of German positions on the French front.

On the American front the Congressmen were guests of officers of the Engineers. Several Representatives chatted with American soldiers who had returned from the trenches. They also visited American batteries and the headquarters and cantonments behind the lines.

#### 244 ALLIED PLANES LOST IN MONTH, GERMAN CLAIM

Germany Puts Her Own Losses for Same Time at 57 Machines and One Balloon.

BERLIN, Nov. 12 (via London).—An official statement issued to-day by the German War Office says:

"By October the enemy aerial losses on the German front were nine captive balloons and 244 airplanes, including 149 which were brought down behind our lines. The remainder fell beyond the enemy positions. We lost in battle 55 airplanes and one balloon."

Five Americans on Canadian Casualty List.

OTTAWA, Nov. 12.—The names of the following Americans are contained in to-day's Canadian casualty list: (Wounded) J. S. Wilson, Los Angeles; G. H. Chasney, Detroit; Arthur Anderson, Mich.; S. D. S. H. McDonald, New York; and Mr. E. R. King, America.

#### BERLIN CLAIMS CAPTURE OF 10,000 MORE ITALIANS

Successes in Upper Valley of the Piave River Reported by War Office.

BERLIN (via London), Nov. 12.—Ten thousand Italian soldiers surrendered to the German-Austrian advance in the Upper Piave Valley, the War Office declared to-day. The troops found their retreat barred near Longorone.

(Longorone is in the Alps about sixteen miles west of Monfalcone and nine miles north of Belluno.) German-Austrian troops have reached Feltrina, on the left wing of the Italian positions along the Piave.

Feltrina is a junction point on the main railway line, just above where the River Sona joins with the Piave. It is about fourteen miles southwest of Belluno and is in the foothills of the Alps. About nineteen miles further on (see Asiago, which the Germans reported they had occupied Saturday.)

At the end of the barrage he saw Germans all around him, five behind him in front of him. He took careful aim and fired three shots and three of the enemy were seen to fall, then a hand grenade fragment entered the Corporal's back and put him out of action."

Investigation shows that all the American telephone wires between the observation posts and trenches and batteries at the rear were cut by fragments of German shells, which numbered approximately fifty thousand. The Germans crossing No Man's Land, rolled out telephone wires behind them and set up a small field telephone exchange outside the American barbed wire, with branches running to at least three points, while the raid was in progress to direct the enemy artillery.

#### U. S. MAY HAVE A PLACE IN ALLIED WAR COUNCIL

Baron Law Tells Congress of Hopes That America Will Participate.

LONDON, Nov. 12.—Andrew Baron Law, Chancellor of the Exchequer, said in the House of Commons today he hopes that the United States would participate in the deliberations of the Allied War Council which would meet at Versailles once a month or more with a view to better co-ordination of military action.
